

Safety On The Net

While the internet is a vast resource of entertainment, learning and social interaction for young people, it is important that parents understand the potential risks.

The following websites are great resources for understanding how to help keep the internet's youngest users safe:

FBI Parent's Guide to Internet Safety

<http://www.fbi.gov/publications/pguide/pguidee.htm>

American Library Association Online Safety Rules and Suggestions

<http://pla.org/ala/oif/foryoungpeople/childrenparents/especiallychildren.cfm>

Microsoft's Child's Safety Prevention Guidelines

<http://www.microsoft.com/protect/family/guidelines/default.aspx>
